Career Objective

Dedicated Web Developer with experience in building responsive websites and web applications using React, JavaScript, and the MERN stack. Skilled in creating user-friendly designs, integrating backend APIs, and setting up secure authentication systems. Experienced in developing dashboards and improving website performance. A fast learner with strong problem-solving skills and a focus on delivering high-quality solutions.

WORK EXPERIENCE

Velocis Core Pvt. Ltd (Feb 2024 - Present)

Biratnagar, Nepal [www.velociscore.com]

Frontend Web Developer :

- Built and maintained web apps using **React.js** and **Tailwind CSS**
- Integrated APIs and dynamic content with backend team
- Implemented **real-time chat** functionality using **Socket.IO**
- Improved performance with responsive design and optimization
- Implemented **SEO best practices** for better visibility and ranking
- Converted Figma/UI designs into functional components
- Handled **deployment, version control (Git),** and hosting

Softsaro Pvt. Ltd (Feb 2023 - Feb 2024)

Kathmandu, Nepal [www.softsaro.com]

Web Developer :

- Built websites for **e-commerce, travel,** and **others** using **React.js**
- Added features like **product sorting, discounts, wishlist,** and **cart**
- Managed **cPanel** for hosting, deployment, and SSL setup
- Implemented **SEO** for better visibility on product and service pages
- Fixed bugs and optimized layout for speed and responsiveness
- Set up **login, routing,** and **mobile-friendly** designs
- Used **Git** for version control and team collaboration

PROJECTS

Note: Some projects listed below are subject to **Non-Disclosure Agreements (NDAs)**, so I have refrained from mentioning specific names.

Health Platform

- Developed key frontend features for onboarding **doctors, hospitals, drivers, and appointments.**
- Created dynamic, multi-step forms and integrated them with backend APIs

Hospital Management System (MERN Stack)

- Built dashboards with **role-based UI** for **Doctors, Patients, and Admins**
- Integrated **Socket.IO** for real-time chat functionality

JCB Rental Management System (In Progress)

- Designing dashboard for managing **rentals, invoices, and machine tracking** using React and Tailwind CSS
